BT FUZE PRODUCTS DIVISION

101 N. Queen St., P.O. BOX 4648, Lancaster, PA 17604

January 8, 2002

Terrence L. Rainar
PA DEP
Bureau of Air Quality
Lancaster District Office
1661 Old Philadelphia Pike
Lancaster, PA 17602

Dear Mr. Rainar:

On December 18, 2001, Bulova Technologies L.L.C. sold the defense products portion of its business to L-3 Communications Corporation. That part of the business is now the BT Fuze Products Division of L-3 Communications Corporation.

Both BT Fuze Products and Bulova Technologies LLC will continue to operate at 101 North Queen Street, Lancaster, PA. As we discussed, both companies are agreeable to operating under the current facility air permit (36-03033) for the site, which is in Bulova Technologies' name.

I have attached a list of the sources from the permit and have identified which sources result from each company. Bulova Technologies LLC owns the air scrubber (C101) and will continue to operate and maintain that equipment.

I am writing this letter to you, because Bulova Technologies LLC has contracted with me under L-3 to perform their environmental compliance activities. Bulova Technologies' contact in matters related to the permit is Craig Schnee, VP of Administration. Please feel free to contact me if you have any questions.

Sincerely,

Robin E. Thomas
Director, Environmental & Chemical Services

Cc: Craig Schnee, Vice President, Administration; Bulova Technologies LLC
William C. Mohler, Vice President, Operations; BT Fuze Products
